

Ethics and Governance of Biomedical Research: Theory and Practice (Research Ethics Forum)

In this book, scholars with different disciplinary and national backgrounds argue for possible answers and analyse case studies on current issues of governance in biomedical research. These issues comprise among others the research-care distinction, risk evaluation in early human trials, handling of incidental findings, nocebo effects, cluster randomized trials, publication bias, or consent in biobank research. This book demonstrates how new technologies and research possibilities multiply or intensify already known governance challenges, leaving room for ethical analysis and complex moral choices. Clinical researchers, research ethics committee members and research ethicists have all to deal with such challenges on a daily basis. While general reflection on core concepts of research ethics is seldom pointless, those confronted with hard moral choices do need more practical and contextualized reflection on the said issues. This book particularly provides such contextualized reflections and aims to inform all those who study, conduct, regulate, fund, or participate in biomedical research.

New Products - more Information Shipping & Returns Privacy Notice Conditions of Use Contact Us Site Map Gift Certificate FAQ Discount Coupons Newsletter Unsubscribe All my gourd creations are original, handcrafted, signed and dated. No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators. If you don't see what you want, please contact me for a custom made gourd creation or inquire about other types of artwork...anything from pet portraits to painted milkcans! Enjoy your visit!
