

The Future of Healthcare Reform in the United States

In the years since the passage of the Patient Protection and Affordable Care Act (PPACA, or, colloquially, Obamacare), most of the discussion about it has been political. But as the politics fade and the laws many complex provisions take effect, a much more interesting question begins to emerge: How will the law affect the American health care regime in the coming years and decades? This book brings together fourteen leading scholars from the fields of law, economics, medicine, and public health to answer that question. Taking discipline-specific views, they offer their analyses and predictions for the future of health care reform. By turns thought-provoking, counterintuitive, and even contradictory, the essays together cover the landscape of positions on the PPACAs prospects. Some see efficiency growth and moderating prices; others fear a strangling bureaucracy and spiraling costs. The result is a deeply informed, richly substantive discussion that will trouble settled positions and lay the groundwork for analysis and assessment as the laws effects begin to become clear.

All Products ... New Products - more Information Shipping & Returns Privacy Notice Conditions of Use Contact Us Site Map Gift Certificate FAQ Discount Coupons Newsletter Unsubscribe All my gourd creations are original, handcrafted, signed and dated. No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators. If you don't see what you want, please contact me for a custom made gourd creation or inquire about other types of artwork...anything from pet portraits to painted milkcans! Enjoy your visit!
