

Information Technology Law

Are you a user of Twitter or Facebook? Do you download your music or shop online? How often do you log on to the Internet using your mobile phone? Aspects of information technology permeate every aspect of our lives. From websites such as Facebook and Twitter, to online music and shopping stores, to CCTV cameras, it is rare that a person is not touched by some form of IT every day. But how often do we stop and think about the legal dimensions of these every day brushes with IT? Since the pioneering first publication of *Internet Technology Law* in 1993, both the book and the subject have become widely recognized and respected both academically and professionally. Focussing primarily on developments within the UK and EU, along with some comparative international aspects, this book provides a broad-ranging introduction and analysis of the frequently difficult relationship between the law and IT. *Information Technology Law* is essential reading for undergraduates and postgraduates on law courses covering the law relating to IT, including IT law, criminal law, intellectual property, and contract law. It will also be highly valuable to business and management students, practitioners, and professionals working in the area. In this sixth edition:

- There is increased focus on the Internet and related activities
- Further information on topical areas such as defamation, computer hacking, virus dissemination, and online gambling will be included
- A new concluding section, *Living in the Internet World* considers the legal implication of our immersion in virtual environments. It asks tantalising questions such as whether a virtual personality can be the victim of assault or theft

Online Resource Centre: - For this new edition the Online Resource Centre hosts an exciting new author blog, a catalogue of web links to key readings, as well as regular updates.

Coupons Newsletter Unsubscribe All my gourd creations are original, handcrafted, signed and dated. No
stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish
for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for
nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness
doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
If you don't see what you want, please contact me for a custom made gourd creation or inquire about other types
of artwork...anything from pet portraits to painted milkcans! Enjoy your visit! New Products For July Pair of
