

Carnival of Rainbows

Carnival of Rainbows is a cocktail for worlds fair enthusiasts. Set at the glittering 1901 Pan-American Exposition, the novel has a strong electrical theme. It focuses on the irony that Buffalo, New York, the city that hosts the Exposition and glorifies electricity as a force for human advancement, was the city where the electric chair was invented. Return to the breathtaking Rainbow City. Experience one of the most unusual love stories ever told. Watch an aging adventuress take on the thundering face of nearby Niagara Falls. And witness the incredible crime that cast its shadow over a nation and eclipsed the light of the electrical fairyland.
