

Water Law in a Nutshell, 5th

The new edition adds dozens of recent decisions and key statutory changes. Virtually every principal case in the leading casebooks is cited or discussed, making it an excellent aid for students in any water law course. The revised book deals with changes in evolving areas like groundwater-surface water conflicts, public recreational uses, instream flow protection, federal water development, takings claims, and public interest concerns.

 stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish
 for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for
 nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness
 doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
