

Illness and Power: Womens Mental Disorders and the Battle between the Sexes

Since ancient times, physicians have believed that women are especially vulnerable to certain mental illnesses. Contemporary research confirms that women are indeed more susceptible than men to anxiety, depression, multiple personality, and eating disorders, and several forms of what used to be called hysteria. Why are these disorders more prevalent in women? Brant Wenegrat convincingly asserts that womens excess risk stems from a lack of social power. He reviews womens social power from an evolutionary and cross-cultural perspective and places mental disorders in the context of evolution and societal organization. In this comprehensive look at mental disorders commonly associated with women, Brant Wenegrat convincingly asserts that womens excess risk stems from a lack of social power.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
