

Elohim: Masters & Minions (Winston Trilogy, Book 2)

Even as the world takes gigantic steps in the fields of genetics, artificial intelligence and nanotechnology, Peter Thornton, the hapless hero of One Just Man, drifts farther and farther away from mundane reality. Yet, in spite of himself, he is drawn into the machinations of Solidarity International, the Sino-Indian Block and the American Coalition, competing for World Domination. In truly Stan Laws style, this book is both: a bold exploration of human potential, and an international thriller. As an added bonus, Peter shows us the way to join him in the realm of mans ultimate destiny.
