Use the supplied clickable table of contents or your readers go-to, search and paging features to easily navigate. Cascading links are provided in all sections of the product to aid with navigation. This product will be updated when Titles are updated by the GPO. The product includes all 8 volumes with all chapters and all parts of Title 14 including: The Federal Aviation Regulations, or FAR rules prescribed by the Federal Aviation Administration (FAA) and Department of Transportation governing all aviation activities in the United States. The rules cover wide variety of activities such as airplane design; maintenance; flight crews; carrier operations; flight rules; recreational, private and commercial pilot training, certification; commercial space flight; hot-air ballooning, model rocket launches and model aircraft operation. The rules are designed to promote safe aviation, protecting pilots, flight attendants, passengers and the general public from unnecessary risk. Regulations from National Aeronautics and Space Administration (NASA) governing public, commercial and private space flight. Regulations from the The National Transportation Safety Board (NTSB) governing investigations of civil transportation accident investigation. The NTSB investigates and reports on aviation accidents and incidents, certain types of highway crashes, ship and marine accidents, pipeline incidents and railroad accidents. Regulations from the Air Transportation Stabilization Board (ATSB) covering federal loan guarantees to air carriers for which credit is not otherwise available and where such agreement is a necessary part of maintaining a safe, efficient and viable commercial aviation

system in the United States. Bonus: Includes Title 49, Part 1552 from Transportation Security Administration, Department of Homeland Security covering pilot training.
