

Foundations of Civil Justice: Toward a Value-Based Framework for Reform

This book reviews the knowledge corpus about access to civil justice across disciplines and legal traditions and proposes a new research framework for civil justice reform. This framework is intended to foster further critical analysis of the justice system in a systematic and organized way. In particular, the framework underlines the tensions between different values considered as central to the civil justice system, and in doing so potentially allows for conscious, reflected and enlightened choices about the values that are to be prioritized in the reform of justice systems.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
