

Buccaneers and Privateers: The Story of the English Sea Rover, 1675-1725

In the late seventeenth century, Spain dominated the Caribbean and Central and South America, establishing colonies, mining gold and silver, and gathering riches from Asia for transportation back to Europe. Seeking to disrupt Spains nearly unchecked empire-building and siphon off some of their wealth, seventeenth- and eighteenth-century British adventurers both legitimate and illegitimate led numerous expeditions into the Caribbean and the Pacific. Many voyagers wrote accounts of their exploits, captivating readers with their tales of exotic places, shocking hardships and cruelties, and daring engagements with national enemies. Widely distributed and read, buccaneering and privateering narratives contributed significantly to Englands imaginative, literary rendering of the Americas in the late seventeenth and early eighteenth centuries, and they provided a venue for public dialogue about sea rovers and their position within empire. This book takes as its subject the literary and rhetorical construction of voyagers and their histories, and by extension, the representation of English imperialism in popular sea-voyage narratives of the period.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators. If you don't see what you want, please contact me for a custom made gourd creation or inquire about other types of artwork...anything from pet portraits to painted milkcans! Enjoy your visit!
