

The Theory and Practice of Local Government Reform (Studies in Fiscal Federalism and State-Local Finance)

The Theory and Practice of Local Government Reform explores the entire spectrum of local government reform and focuses specifically on the question of structural reform in local government. It presents new theoretical models in an area largely lacking in analytical foundations and assesses the validity of these models against recent structural developments in seven countries. Changes to local government are some of the most heartfelt and hotly contested political issues in advanced democracies today. The authors draw on recent policy developments in seven different countries, as well as academic literature, to present new thinking on optimal municipal governance in the face of future policy challenges. This timely book will be invaluable for both undergraduate and graduate students on local government in political science, public administration and public policy courses. Practitioners and policymakers in local government will also find this book an enlightening read.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators. If you don't see what you want, please contact me for a custom made gourd creation or inquire about other types of artwork...anything from pet portraits to painted milkcans! Enjoy your visit!
