

Thraxas and the Elvish Isles

In the fourth book of the Thraxas series, Thraxas is invited to the Elvish Island of Avula. Sailing south means he can avoid the harsh Turanian winter, and escape from Makri, whose recent behaviour has outraged all decent citizens. Makri refuses to be left behind, much to the displeasure of the Turanian Prince, who knows her Orcish blood isn't going to be welcome on any Elvish island. Once there, Thraxas finds himself involved in the puzzling case of the Elvish sacred tree, and Makri starts giving sword-fighting lessons to a very puny young Elf. As a restful holiday, Thraxas's voyage south doesn't work out as well as he hoped. There's a lot more Elvish crime than he expected, and he ends up in conflict with virtually everyone on Avula. This is a new edition with an introduction by the author.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
