

The Strategist

What if you knew the most important economic data in the world was being manipulated? How much money could you make . . . and how long would you live? When a disgraced former top Wall Street strategist starts to suspect the U.S. employment data is being manipulated to influence the Presidential election, he knows no one is going to listen. But when several people show up dead, a provocative reporter, who happens to be his ex-fiancee, takes notice. As they uncover a web of secrets, lies, and corruption, they are forced to choose between ambition, loyalty and love to save their lives . . . and the global economy. Set in the aftermath of the financial crisis, *The Strategist* is a fast paced, plot twisting thriller straight from today's headlines by a former Wall Street insider. But could it be real? Read it, then look at the recent employment data and decide for yourself!

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
