

Cities and Wetlands: The Return of the Repressed in Nature and Culture (Environmental Cultures)

From New Orleans to New York, from London to Paris to Venice, many of the world's great cities were built on wetlands and swamps. *Cities and Wetlands* is the first book to explore the literary and cultural histories of these cities and their relationships to their environments and buried histories. Developing a ground-breaking new mode of psychoanalytic ecology and surveying a wide range of major cities in North America and Europe, ecocritic and activist Rod Giblett shows how the wetland origins of these cities haunt their later literature and culture and might prompt us to reconsider the relationship between human culture and the environment. Cities covered include: Berlin, Boston, Chicago, Hamburg, London, New Orleans, New York, Paris, St. Petersburg, Toronto, Venice and Washington.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
