

Exclusion from Participation in International Organizations: The Law and Practice Behind Member States Expulsion and Suspension of Membership (Studies ... on the Settlement of International Dis)

This volume deals with expulsion from and suspension of membership rights in international organisations. This is an area of the law of international organisations which has attracted limited attention by academic writers. The book examines some 35 different international organisations by analysing the relevant provisions in their constitutive instruments and, where available, discussing the practice. Additionally, it describes in considerable detail the practice of rejecting delegations credentials as a means of excluding Member States from participation. Moreover, it suggests solutions for those international organisations lacking expulsion and/or suspension clauses by applying the Vienna Convention on the Law of Treaties and the theory of countermeasures in international law, especially as codified by the International Law Commission. Finally, the book offers a model expulsion and suspension clause to be incorporated in existing or future international organisations.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
