

Computer Software Protection and Semiconductor Chips (Current EC Legal Developments)

This is the first title in the Current EC Legal Developments series which covers highly topical areas of EC law, giving full texts of proposed and enacted legislation, together with analysis and commentary by practitioners who are experts in relevant areas. Computer Software Protection and Semiconductor Chips considers the application and effect of the proposed EC provisions on computer software protection, with reference by example to the current legal position in member states, particularly Germany.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
