

Nothing to Confess

Lance Turners successful record of accomplishment as a donor coordinator for the Ohio Organ Bank is suddenly jeopardized when six of seven transplant patients simultaneously become ill within a month of receiving organs from a young, seemingly healthy, deceased donor. The series of lawsuits generated from these cases, spearheaded by William Hacketts notorious medical malpractice firm, pose a threat not only to Lances career but also to public trust in the organ donation system and to the lives of thousands of patients awaiting organ transplants.

 stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish
 for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for
 nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness
 doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
