

Bejeweled 2: Underground Tips & Secrets Guide

Bejeweled 2 can be best defined as a puzzle game full of glittering stones that is designed on the traditional mix and match theme. The game was designed by Jason Kapalka and since its creation it has managed to gather various fans, which is why this sequel is as popular as the original. Although the concept of the game is fairly simple i.e. match identical colored gems and let them pop, but what distinguishes this game from other mix and match ones is its challenge level. The craving to clear the level with high scores will keep you preoccupied with the game! If you are interested in knowing more about this addictive Bejeweled game and how you can successfully clear it, then read ahead!

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
