

European Union Internal Market Law

This is the markets most student-friendly textbook on EU internal market law, covering everything students need to know about the legal and regulatory framework of the internal market and eliminating the need for a full EU law text. Concise and focused, chapters explore the underlying socio-economic and historical contexts of EU law, and offer a thorough examination of the laws technical aspects, ensuring that students gain a rich understanding of the way that legal rules and structures have developed from key political and social debates. Key concepts are illustrated by excerpts, summaries and discussions of classic and modern cases. Numerous features include text boxes, illustrative cases, legal interpretations, tables, and suggestions for further reading, which support students with little background knowledge of the subject, leading them to total mastery of the material.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
