

E-Health Business and Transactional Law

Get the legal guidance you need to expertly counsel your clients as the health care industry surges toward electronic-based operations. With the federal governments push toward a national, interoperable health information infrastructure and the Presidents appointment of a national health information technology coordinator with the goal that every American will possess a personal electronic medical record within the next 10 years—health is rapidly emerging as one of the most dynamic and fastest-growing areas of the health care industry. As this highly regulated industry becomes more dependent on information technology, new and unfamiliar legal issues confront the health law practitioner. Get the clear guidance you need with the only text that covers the full range of today's e-health business and transactional law issues.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
