

Software & Internet Law, 4th Edition (Aspen Casebook)

Among the first casebooks in the field, Software and Internet Law presents clear and incisive writing, milestone cases and legislation, and questions and problems that reflect the authors' extensive knowledge and classroom experience. Technical terms are defined in context to make the text accessible for students and professors with minimal background in technology, the software industry, or the Internet. Always ahead of the curve, the Fourth Edition adds coverage and commentary on developing law, such as the Digital Millennium Copyright Act's Safe Harbor, the Electronic Communications Privacy Act, and the Stored Communications Act. Hard-wired features of Software and Internet Law include: consistent focus on how lawyers service the software industry and the Internet; broad coverage of all aspects of U.S. software and internet law; with a focus on intellectual property, licensing, and cyberlaw. The Fourth Edition responds to this fast-changing field with coverage of: the Digital Millennium Copyright Act's Safe Harbor, the Electronic Communications Privacy Act, the Stored Communications Act, Hot News, Misappropriation, Civil Uses of the Computer Fraud and Abuse Act.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators. If you don't see what you want, please contact me for a custom made gourd creation or inquire about other types of artwork...anything from pet portraits to painted milkcans! Enjoy your visit!
