

The Case for Democracy: The Power of Freedom to Overcome Tyranny and Terror

In this brilliantly analytical yet personal book, nondemocratic societies are put under a microscope to reveal the mechanics of tyranny that sustain them. In exposing the inner workings of a fear society, the authors explain why democracy is not beyond any nations reach, why it is essential for our security, and why there is much that can be done to promote it around the world. Freedom, the authors claim, is rooted in the right to dissent, to walk into the town square and declare ones views without fear of punishment or reprisal. The authors persuasively argue that societies that do not protect that right can never be reliable partners for peace and that the democracy that hates us is much safer than the dictatorship that loves us.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
