

Taking the Train

In the 1960s and early 1970s, young people in New York City radically altered the tradition of writing their initials on neighborhood walls. Influenced by the widespread use of famous names on billboards, in neon, in magazines, newspapers, and typographies from advertising and comics, city youth created a new form of expression built around elaborately designed names and initials displayed on public walls, vehicles, and subways. Critics called it graffiti, but to the practitioners it was writing. *Taking the Train* traces the history of writing in New York City against the backdrop of the struggle that developed between the city and the writers. Austin tracks the ways in which writing? a small, seemingly insignificant act of youthful rebellion?assumed crisis-level importance inside the bureaucracy and the public relations of New York City mayoral administrations and the Metropolitan Transportation Authority for almost two decades. *Taking the Train* reveals why a global city short on funds made wiping out graffiti an expensive priority while other needs went unfunded. Although the city eventually took back the trains, Austin eloquently shows how and why the culture of writing survived to become an international art movement and a vital part of hip-hop culture.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators. If you don't see what you want, please contact me for a custom made gourd creation or inquire about other types of artwork...anything from pet portraits to painted milkcans! Enjoy your visit!
