

# The Globalization of Class Actions (The ANNALS of the American Academy of Political and Social Science Series)

This groundbreaking volume of The ANNALS provides the first overview of class action laws and related mechanisms around the world. It features 30 country reports by leading scholars, describing the adoption, characteristics and consequences to date of class action and non-class group litigation procedures ranging across North and Latin America, Australia, Asia and Europe. In December 2007, Stanford Law School and the Oxford Centre for Socio-Legal Studies organized an international conference that studied the global spread of class actions and group litigation procedures. Scholars, jurists, and practitioners from around the world gathered to discuss and debate the use of group litigation procedures and initiate a research project on the evolution of class actions and aggregate litigation worldwide. This volume of The ANNALS is one result of that conference. Students, scholars and policymakers will find this anthology of reports to be an essential overview, providing a solid understanding of the effects of class actions around the globe.

stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish  
for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for  
nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness  
doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.  
If you don't see what you want, please contact me for a custom made gourd creation or inquire about other types  
of artwork...anything from pet portraits to painted milkcans! Enjoy your visit! New Products For July Pair of
