

Forensic Victimology, Second Edition: Examining Violent Crime Victims in Investigative and Legal Contexts

Published in 2009, the first edition of Forensic Victimology introduced criminologists and criminal investigators to the idea of systematically gathering and examining victim information for the purposes of addressing investigative and forensic issues. The concepts presented within immediately proved vital to social scientists researching victims-offender relationships; investigators and forensic scientists seeking to reconstruct events and establish the elements of a crime; and criminal profilers seeking to link pattern crimes. This is because the principles and guidelines in Forensic Victimology were written to serve criminal investigation and anticipate courtroom testimony. As with the first, this second edition of Forensic Victimology is an applied presentation of a traditionally theoretical subject written by criminal justice practitioners with years of experience-both in the field and in the classroom. It distinguishes the investigative and forensic aspects of applied victim study as necessary adjuncts to what has often been considered a theoretical field. It then identifies the benefits of forensic victimology to casework, providing clearly defined methods and those standards of practice necessary for effectively serving the criminal justice system. 30% new content, with new chapters on Emergency Services, False Confessions, and Human Trafficking Use of up-to-date references and case examples to demonstrate the application of forensic victimology Provides context and scope for both the investigative and forensic aspects of case examination and evidence interpretation Approaches the study of victimology from a realistic standpoint, moving away from stereotypes and archetypes Useful for students and professionals working in relation to behavioral science, criminology, criminal justice, forensic science, and criminal investigation

All Products ... New Products - more Information Shipping & Returns Privacy Notice Conditions of Use Contact Us Site Map Gift Certificate FAQ Discount Coupons Newsletter Unsubscribe All my gourd creations are original, handcrafted, signed and dated. No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators. If you don't see what you want, please contact me for a custom made gourd creation or inquire about other types of artwork...anything from pet portraits to painted milkcans! Enjoy your visit!
