

Calculating Texas Holdem Poker Odds Made Easy

I wrote this book to illustrate and analyze the underlying components of Texas Hold em poker odds so that you will become a better Texas Hold em poker player. The poker books I have read only devoted about ten pages on poker odds and expected you to memorize tables that seemed meaningless. The illustrations in this book will bring meaning and life to those tables. You will be able to make quick decisions about complicated problems. You will have more time to focus on other information, such as: tells, who is a weak player, who is a strong player, who is too aggressive, who will fold their blinds, who will protect their blinds, who will take advantage of the button (position) and who you can make a move against (bluff). You will have the confidence you need to play and compete with the pros.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators. If you don't see what you want, please contact me for a custom made gourd creation or inquire about other types of artwork...anything from pet portraits to painted milkcans! Enjoy your visit!
