

Corporations: A Contemporary Approach

The author offers a fresh perspective on the traditional corporate law course while retaining most of the classic cases. Integrating economics, sociology, philosophy, and psychology, the book incorporates contemporary corporate issues through cases and materials that situate the corporation in its social and political setting. This casebook takes a new approach to the organization of the traditional materials on directors and officers duties by integrating materials such as derivative litigation and indemnification. Issues involving close corporations (including promoters liability, limited liability, piercing, and other related issues) are gathered in one chapter while also retaining traditional case materials. The notes and questions provoke thought not only on legal issues and the relationship between cases and theories, but also on the effect corporations have on their constituents and communities. There is also a chapter devoted to the corporations place in modern society that covers traditional issues as well as more novel ones. The third edition has been updated with the addition of new cases and new material on IPOs and accounting as well as new questions and comments throughout the book. A major new addition is a Glossary that defines many business and finance terms not generally familiar to the typical student.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators. If you don't see what you want, please contact me for a custom made gourd creation or inquire about other types of artwork...anything from pet portraits to painted milkcans! Enjoy your visit!
