

New Rules to Get Rich

Possession of The New Rules is like owning a vault full of gold! If you are still running your financial life according to the wealth-building rules we all grew up with, you are severely limiting your power, creativity, and financial potential as a result. As recent economic events have demonstrated, these old rules are dead. A new and radically different set of rules have taken their place. And the time for you to learn them and stake your claim in the new economy is NOW! In this eye-opening and somewhat shocking program, Garrett B. Gunderson presents a revolutionary new financial paradigm that can open you up to unprecedented opportunities and unimagined wealth. Through well-reasoned arguments, unflinching logic, and revelatory insight, Gunderson defeats common cliches and faulty retirement planning advice to plainly demonstrate that: * 401(k)s and the stock market are the MOST risky investments for most people, and the gambling mindset they induce creates disastrous consequences* Conventional retirement planning advice, products, strategies, and techniques expose you to significant danger of being unable to retire, or of running out of money prematurely if you do* Building net worth is a recipe for creating a life of fear and poverty and how to escape that common trap* Debt may not be what you think it is and why that matters to your prosperity* High risk equals high returns is destructive dogma and how reducing risk can increase your returns* And much more!
