

Mary McLeod Bethune in Florida: Bringing Social Justice to the Sunshine State

Mary McLeod Bethune was often called the First Lady of Negro America, but she made significant contributions to the political climate of Florida as well. From the founding of the Daytona Literary and Industrial School for Training Negro Girls in 1904, Bethune galvanized African American women for change. She created an environment in Daytona Beach that, despite racial tension throughout the state, allowed Jackie Robinson to begin his journey to integrating Major League Baseball less than two miles away from her school. Today, her legacy lives through a number of institutions, including Bethune-Cookman University and the Mary McLeod Bethune Foundation National Historic Landmark. Historian Ashley Robertson explores the life, leadership and amazing contributions of this dynamic activist.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
