

Aircraft Accident Reconstruction and Litigation

This book provides a basic source of technical and legal information to participate intelligently in the search for probable causes and discussion of the legal aspects of aircraft accidents. Readers will appreciate the book's refreshing review of the elements of aerodynamics, structural design, powerplants, aircraft control techniques, as well as the nuances of applicable law such as product liability and negligence. The appendix itself is a learning experience. This book could be considered a postgraduate guide for the hardware-oriented aircraft accident investigator, especially the sections on human errors and human factors. This fourth edition includes chapters on the Freedom of Information Act, safety, discovery, spoliation of evidence, Death on the High Seas Act, tort litigation and more.

 Coupons Newsletter Unsubscribe All my gourd creations are original, handcrafted, signed and dated. No
 stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish
 for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for
 nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness
 doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
 If you don't see what you want, please contact me for a custom made gourd creation or inquire about other types
 of artwork...anything from pet portraits to painted milkcans! Enjoy your visit! New Products For July Pair of
