

Briefcase on Equity and Trusts (Briefcase Series, 3rd edition)

This book is designed to complement modern degree courses in equity and the law of trusts. Attention is given to traditional deed created trusts and also to modern trusts in commercial contexts, which are of increasing importance. The emphasis is on the intellectual and conceptual challenges arising from equity and trusts in their practical settings. Accordingly, the book is divided into broad headings covering the setting up of trusts, the variation of trusts, filling the office of trustee, breach of trust, resulting trusts, constructive trusts, tracing and injunctions. Orthodox chapter headings are arranged within this framework. Whilst the book is not intended to be a comprehensive text, it seeks to provide the reader with accurate summaries of the major cases and to stimulate reflective study through textual notes and questions. Summaries of the principal statutes are also included where necessary.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
