

Regulating Obesity?: Government, Society, and Questions of Health

Regulating Obesity?: Government, Society, and Questions of Health explores the effectiveness of legal interventions aimed at promoting healthier lifestyles. In this book, W.A. Bogart suggests that the governments emphasis on encouraging weight loss and preventing excess weight gain have largely failed to resolve obesity and have instead fueled prejudice against overweight people. He suggests that a major challenge lies in shifting norms away from stigmatization of the obese and towards more nutritious and healthy lifestyle habits in addition to the acceptance of bodies in all shapes and sizes. Part of this challenge lies in the complex effects of law and its relationship with norms, including the unintended consequences of regulation. Regulating Obesity? begins by arguing for the protection of the overweight and obese from discrimination through human rights laws. It then examines three other areas of interventions--marketing, fiscal policy, and physical activity--and how these interventions operate within the context of health equity. Professor Bogart evaluates the effectiveness of legal regulation in addressing obesity and concludes that a healthier population is more important than a thinner population. Regulating Obesity? is the first book to engage in the comprehensive evaluation of this role for law and the implications of societys fascination with regulating consumption.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators. If you don't see what you want, please contact me for a custom made gourd creation or inquire about other types of artwork...anything from pet portraits to painted milkcans! Enjoy your visit!
