

# SAT for Jocks

From Mark Lawley, ex-jock and current founder of the elite SAT test preparation company Ivy Scholastic, comes a first-of-its-kind test preparation book targeted specifically for the high school jock. High school athletes have what it takes to play the game of the SAT. They know how to work hard and continuously, and they know how to get themselves under control when its Go Time. And yet in my years teaching college and high school students and tutoring for standardized tests, Ive noticed that many athletes dont do well on the SAT. Most test prep materials are huge, unwelcoming, and targeted towards students who have more time to read--i.e. not athletes. Additionally, some teachers expect athletes to perform poorly on tests, and so athletes arent provided with the encouragement they need. In other words, athletes typically receive poor coaching for the elite academic sport we call the SAT. Thats where this book comes in. Since athletes have many demands on their time, SAT for Jocks gets straight to the meat of what the athlete needs to know. I wont try to teach you every bit of grammar, math, and reading comprehension taught throughout middle school and high school; instead, Ill leverage what you already know. I wont teach you every test strategy ever tried by any test taker anywhere on the planet; instead, Ill show you the handful of strategies that have worked for my students over and over again. By the time you finish this book, youll have the tools you need to give your best performance on the test. If you have more time and want to take your game further, the final chapters of the book include exercises to help you cultivate your mental athleticism.

Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
