

# Would You Like to Know a Secret?: An Epic Secret Hidden in Television

An epic secret is hidden in a popular television show; this feat may be the greatest media deception ever accomplished. Aspects of the incredible secret are revealed and you are challenged to guess the identity of the show for yourself. Once you learn The Secret, you will be unable to watch any episode of this television series without seeing the deeper story. The book divulging all will follow soon. From the back cover: Throughout years of a popular television series, an entity has guided, and misguided, people and events to suit its own purposes. A dark fictional world is made darker with the knowledge of a controlling being whose powers could be called supernatural. The book revealing the specifics of this series-wide deception will be released soon. We cannot tell you its title because that would give away half the game. If you knew a famed television show contains a hidden layer of design, which changes how every episode is perceived, could you guess which one it is? The Secret is not simple, nor is its revelation and explanation; our forthcoming book exceeds 600 pages, with a second volume almost complete. In addition to maneuvering the actions of those within its scope of influence, this master manipulator employs extensive allusions to classical and popular works movies, television, comics, fine art, literature, and more to aid their structuring of details. The story is complex, engaging, and fascinating. Come explore with us the possibilities. Other deceptions in popular media will be examined, although none has been as complete and prolonged as this one. Unlike the others, The Secret has gone undiscovered until now.

stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
