

# The Tongue Snatchers (European Women Writers)

Claudine Herrmann became famous in France with the publication of *Les Voleuses de langue* in 1976. Her much-quoted book is now recognized as a modern classic of feminist literary criticism. Nancy Kline's welcome English translation captures the clarity and passion of observations that go beyond books to boudoirs and boardrooms. Herrmann charges that language is the fundamental means by which women are oppressed. Their education forces them to parrot masculine discourse, often gets them dismissed as chatterboxes, and silences their real lives. Women who desire to express themselves creatively are obliged to steal language or to invent one of their own. Based on readings of major texts in literature, philosophy, and the social sciences, *The Tongue Snatchers* illuminates how men and women differ in their experiences of words, work, space, time, love, and sexuality.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
