

Landscape with Figures: A History of Art Dealing in the United States (Hardback) - Common

This work offers a history of art dealing in the United States, following the profession from 18th-century portrait and picture salesmen in the colonies, to the high-profile, jet-set gallery owners of today.

 stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish
 for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for
 nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness
 doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
