

Collected Works of J. R. McCulloch, 8 Volumes

John Ramsay McCulloch was one of the first professional teachers of economics and was appointed the first professor of Political Economy at London University. He was the distinguished editor of the Scotsman for many years and contributed to the Edinburgh Review from 1818 to 1837. He preached the doctrine of economist David Ricardo with almost fanatical discipleship and did much to bring about the victory of the Ricardian view among his contemporaries. This collection includes the extremely rare *The Essay on the Interest of the National Debt*, *A Treatise on the Principles and Practical Influences of Taxation*, and the *Principles of Political Economy*.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
