Claudia Hartford is the perfect wife with a perfect husband and a perfect marriage, right up to the point when this odd little lump turns up in her right breast. This is not a true story. It is not a medical textbook or non-fiction. But it is a factual, fictional account of how cancer affects lives of persons diagnosed with any cancer and the struggles they face. This is one womans story.

Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
