

Laboratory Exercises in Oceanography

This is the current edition of the lab manual used by tens of thousands of students over the past two decades. As always, the manual includes exercises for the major disciplines within oceanography (biology, chemistry, geology, and physics) and incorporates real data from actual experiments. The new edition adds four new labs, thorough updating throughout, new objectives sections, and an 8-page color insert.

No stencils or patterns are ever used. Every birdhouse is treated with several coats of high quality exterior varnish for protection from the elements and to ensure colors will stay bright throughout the seasons. Birds love gourds for nesting and will often return to the same one year after year. When nesting season ends, the gourd's usefulness doesn't end. Birds will continue to use them as shelter from weather and for protection from predators.
